Thanks for the update. I also agree about the NCA4. I was able to gather a lot of information from the regional assessments for my presentation. Very informative.

**Subject:** RE: Region 7 Science Council

These are great starts. My deputy S and T director told me to reach out to the air director to check in about the topics. We hopefully will also be able to get in touch with Joe Francis from NE today or early next week on the topics. I will check back in as soon as possible.

On another note, the NCA4 briefing for the R7 RA and DRA is still moving forward for next Wednesday. I heard that HQ may be briefing all of the RAs soon on climate and that John Konkus might meet with us to discussion climate change talking points. Will keep you in the loop. I really appreciate all the help you have provided so far, Andy.

Thanks! Amy

Amy, Karen:

Here are a couple of possible discussion topics for your consideration. We should chat about these, but this will give us a starting point for the discussion. I'm fine with some email back-and-forth to possibly focus the topics or suggest new ones.

Andy, Beth and Karen- I just realized that the CMAQ ORD presentation is now the same time as our R7 Science Council meeting on 2/27. I think there are a few options... we can continue forward and have the R7 meeting at the same time. Or we could potentially see if the states are open to having our science council meeting from 1:30-2 central time or after the presentation at 3 central.

What is your preference?

**EPA Tools and Resources Webinar:**  
**Recent Enhancements to the CMAQ Modeling System**  
**FEB 27th**  
**3:00 to 4:00 PM ET**
